

NORDIC ApS is fusioning with CNC Consult ApS

Nordic 

- supported by technicians

It is with great joy that we can announce the fusion of NORDIC ApS and CNC Consult ApS with effect from January 12, 2022, under the name NORDIC ApS.

We have chosen to consolidate our competencies in one unified company where we will continue delivering products, solutions and supporting our customers within the Nordic countries. Our services and products will be the same, just gathered under NORDIC ApS!

Our production specialists stand ready to help with everything from new projects to urgent deliveries in the late evening hours from our warehouse centrally located in Denmark.

NORDIC ApS will continue the close collaboration with HEIDENHAIN and continues as the official HEIDENHAIN Technology Center. The service department will continue service for CNC machines and industrial machines for our Nordic customers under the well-known concept where we guarantee a maximum of 5 billed hours in relation to troubleshooting.

**For questions or other requests, Freddie Ourø Gaardbye is at your disposal.
Call directly at +45 40 427 608 or write to fg@nordic.nu.**

NORDIC ApS is looking forward to collaboration with both current and new customers!

Note our new company details that are found on the backside.

Furthermore, we can help delivering products from Renishaw, Hexagon M&H, Indramat and many more well-known manufacturers!

The service department

The service department at NORDIC has more than 100 years of experience with repairs on CNC machines and machinery for the industry!

All our technicians are specialised in controls by SIEMENS & HEIDENHAIN.

Regardless of whether we are dealing with the repair of older or the newest systems, we always make sure to help our customers continue their production!

**5 HOURS
- that is MAX!**

Our price calculator ensures
that we will maximally bill for five
hours in relation to troubleshooting.
Further hours are eliminated
by our price ceiling.
